PROFESSIONAL PROFILE

Interactive Designer with strong skills in web application development and digital solutions. I am currently pursuing a Specialization in Software Development, strengthening my background in software engineering and technology-driven solutions. I specialize in programming and web development, with advanced proficiency in Python and Front-End Development, particularly React, JavaScript, HTML, and CSS. I have strong knowledge of relational and non-relational databases, UX/UI design, and digital application development. I am a problem solver with strong teamwork and adaptability skills, committed to delivering functional, high-quality solutions.

WORK EXPERIENCE

FRONTEND DESIGNER & DEVELOPER **SURTITODO S.A.S - 2025**

Participated in the Technology and E-commerce team, contributing to the development of digital solutions that optimized internal processes and enhanced the user experience across the e-commerce platform. Collaborated with cross-functional teams on digital transformation initiatives, supporting the development of interfaces, features, and business-oriented improvements.

Key Responsibilities

- Designed and implemented web interfaces for internal applications and tools within the e-commerce ecosystem.
- Developed front-end features, including authentication modules and user management functionalities, following software development best practices.
- Contributed to improving the digital user experience through intuitive and functional interfaces aligned with UX/UI principles.
- Collaborated closely with Technology, Marketing, and Business teams to implement continuous improvements and address business needs.
- Managed and optimized product catalog information, monitoring inventory and publication processes to ensure accurate and consistent data.
- Monitored and analyzed data from commercial campaigns, evaluating results and impact to support decision-making and future improvements.
- Monitored product publication workflows, using data and indicators to identify pending items, inconsistencies, and opportunities for process improvement.
- Participated in the execution of commercial campaigns and e-commerce launches, monitoring their performance and results.

MICROSOFT 2026

DATA ANALYST
MICROSOFT 2026

INTRODUCTION TO CYBERSECURITY
HARVARD 2026 - En curso

TECHNICAL SKILLS

- **Front-End (React, JavaScript, TypeScript, HTML, CSS)** (Advanced)
- **Python** (Advanced)
- **Databases (PostgreSQL, MySQL, MongoDB)** (Advanced)
- **Back-End (FastAPI, .NET, Node.js, PHP, REST APIs)** (Intermediate)
- **Software Architecture (System Design, Design Patterns, Monitoring)** (Intermediate)
- **Cloud Computing (AWS)** (Intermediate)
- **Software Development (SDD)**
- **Data Analysis (Power BI, R, Excel)** (Advanced)
- **Project Management (SCRUM, Azure DevOps, Trello)**
- **Figma** (Advanced)
- **Adobe Photoshop** (Intermediate)
- **Adobe Illustrator** (Intermediate)

SOFT SKILLS

- Problem Solving
- Effective Communication
- Teamwork & Collaboration
- Adaptability
- Attention to Detail
- Creativity
- Leadership
- Continuous Learning
- Innovation Mindset
