PROFESSIONAL PROFILE

Interactive Designer with strong skills in the development of digital applications, immersive environments, and creative solutions. I am currently pursuing a Specialization in Software Development, strengthening my expertise in software engineering and the development of technology-driven solutions. I specialize in programming, with advanced proficiency in Python and solid knowledge of JavaScript, HTML, and CSS. I also have strong expertise in UX/UI design, relational and non-relational databases, and front-end development. I am a proactive and resourceful professional with strong teamwork skills and the ability to adapt quickly to new challenges, always committed to delivering creative, high-quality solutions.

I am a proactive and resourceful professional with strong teamwork skills and the ability to adapt quickly to new challenges, always committed to delivering creative, high-quality solutions.

WORK EXPERIENCE

FRONTEND DESIGNER & DEVELOPER

SURTITODO S.A.S - 2025

Participated in the Technology and E-commerce team, contributing to the development of digital solutions that optimized internal processes and enhanced the user experience across the e-commerce platform. Collaborated with cross-functional teams on digital transformation initiatives, supporting the development of interfaces, features, and business-oriented improvements.

Key Responsibilities

- Designed and implemented web interfaces for internal applications and tools within the e-commerce ecosystem.
- Developed front-end features, including authentication modules and user management functionalities, following software development best practices.
- Contributed to improving the digital user experience by creating intuitive, functional, and user-centered interfaces aligned with UX/UI principles.
- Managed and optimized the product catalog, ensuring accurate organization and high-quality product information.
- Supported the execution of commercial campaigns and product launches on the e-commerce platform.
- Worked closely with Technology, Marketing, and Business teams to implement continuous improvements and address strategic business needs.
